

Parent Engagement Policy

Stillwater Junior High School will make every effort to elicit parent involvement and support throughout the school year. Organizations such as SJHS PTO, Title 1, PLC Leadership Team, and Special Event committees will be involved in planning and implementing parent involvement policies and events. All parents will be notified of meetings via school messenger, the school website announcement page and calendar, and social media. EL Parents will receive information in their native language. Since all teachers seeking employment with Stillwater Public Schools must be highly qualified, parents will be reassured that quality instruction will be taking place in each classroom. Stillwater Junior High will advocate open lines of communication concerning all areas of student instruction and school policy.

Stillwater Junior High will encourage parents to become involved in all areas of student learning. All instruction and curriculum information will be shared via school messenger, parent enrollment nights, Google Classrooms, and the SPS website. Teachers will provide objectives and lesson plan information weekly via Google Classroom for each course. Parents will find additional information on the district website pertaining to curriculum, course descriptions, report cards, and grade-level standards. Stillwater Junior High hosts a variety of parent nights including a Back-To-Event, Parent Education Nights, Family Night at the Book Fair, Parent Conferences, and Parent Enrollment Night. We encourage our parents to join our PTO and volunteer when they can to make our school the best it can be.
